TBC

Dear Sir / Madam,

TBC

Notice of application for planning permission for the Point of Ayr (PoA) Cable Route Foreshore Works, located to the north-west of the PoA Gas Terminal

I am writing to notify you that we intend to submit a planning application to Flintshire County Council on TBC for the installation of an underground section of Horizontal Directional Drilling (HDD) conduit under Gronant Dunes originating from the HDD Entry Pit (consented under FUL/000246/23), to a buried HDD Exit Pit at the Mean High Water Spring (MHWS) line, and burial of a combined electrical and fibre optic cable across Talacre Beach and Foreshore to the Mean Low Water Spring (MLWS) line, located to the north-west of the Point of Ayr (PoA) Gas Terminal ("the Proposed Development")

Under Article 10 of the Town and Country Planning (Development Management Procedure) (Wales) Order 2012, applicants are required to give notice to the owner or agricultural tenant of land to which their application relates. Please find attached an Article 10 notice enclosed with this letter. The application has been submitted to the Local Planning Authority, Flintshire County Council, on Planning Applications Wales and will have the following reference number TBC.

The Proposed Development is seeking re-authorisation of the cable route element of the works consented under application reference no: FUL/000246/23 granted in May 2024 ("the Consented Development") but on a new alignment that is approximately 250m further east along Talacre beach.

The Proposed Development forms part of the wider Liverpool Bay CO₂ Transportation and Storage infrastructure to serve the wider HyNet North West project. HyNet is a low carbon hydrogen and carbon capture, transport

and storage project that will unlock a low carbon economy for the North West of England and North Wales and put the region at the forefront of the UK's drive to Net Zero.

If you wish to discuss this project further or would like any additional information, please do get in touch with our Planning Agent (WSP) as follows:

HyNet Carbon Dioxide Pipeline – PoA Foreshore Works Project Manager –
Raakhee Patel (raakhee.patel2@wsp.com)

HyNet Carbon Dioxide Pipeline – PoA Foreshore Works Planning Lead –
Vidushi Agarwal (vidushi.agarwal@wsp.com)

Yours faithfully,

Martin Currie
Director, Liverpool Bay CCS Ltd
