

Point of Ayr Terminal

COMMUNITY NOTICE

Warren Farm and Talacre Beach Activity

Please be advised that activity is continuing at Warren Farm.

From **Tuesday 15 September**, you may notice an increase in vehicle movements to and from the site with associated noise.

From **Wednesday 16 September to Friday 18 September**, there will be an increase in activity at Talacre Beach. You may notice additional vehicle movements, construction equipment and associated noise during working hours. Please take care and keep clear of the designated work areas.

PoA Terminal Decommissioning and Construction Activity

Decommissioning and construction activities are underway at the Point of Ayr Terminal. Works are also ongoing within the surrounding Colliery area, resulting in an increase in site activities and vehicle movements. From **Monday 14 September**, you may notice a tractor in the area while essential grounds maintenance works are being carried out.

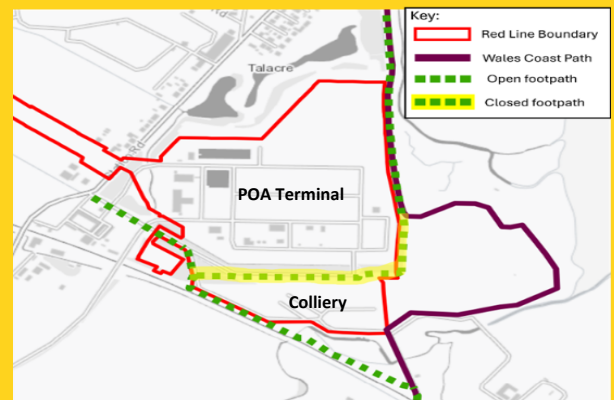

Up until the end of 2026, subject to project progress, piling activities will be carried out inside the Terminal. You may notice an increase in noise levels, site activity and vehicle movements.

All activities will take place **Monday to Friday from 08:00 to 18:00** and **Saturdays from 08:00 to 13:00**, with an additional hour either side for site preparation and close-down. You may also see unmanned aerial vehicles ('drones') operating within the Terminal boundary but no noise is associated with them.

Temporary Closure of Public Right of Way

The public footpath (highlighted in yellow on the map) is temporarily closed, following approval from Flintshire County Council. The route, which runs between the Point of Ayr Terminal and the Colliery, has been securely fenced off as a safety precaution to protect the public from the ongoing work on the Colliery, and ensure the safety of the workforce undertaking the activities ongoing in this area.

While the path is closed, an alternative route (shown in green on the map) is available along the railway line, reconnecting with the Wales Coastal Path. Clear signage has been installed to guide walkers to the alternative route.
