

Point of Ayr Terminal

COMMUNITY NOTICE

PoA Terminal Decommissioning and Construction Activity

Decommissioning and construction activities are underway at the Point of Ayr Terminal and surrounding Colliery area.

From **Tuesday 7th April – Friday 24th April**, subject to project progress, test piling activities will be carried out inside the Terminal.

During this period, there may be an increase in noise levels, site activity and vehicle movements. Works will take place **Monday to Friday from 08:00 to 18:00** and **Saturdays from 08:00 to 13:00**, with an additional hour either side for site preparation and close-down. You may also see unmanned aerial vehicles ('drones') operating within the Terminal boundary but no noise is associated with them.

Talacre Beach Drone Survey

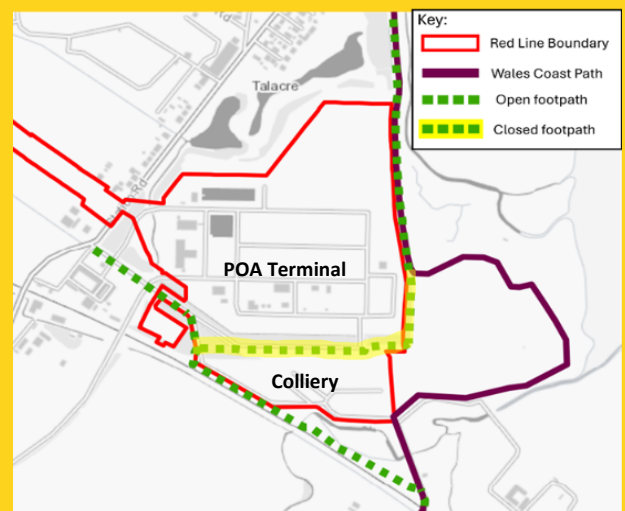

Please be advised that we will be carrying out drone survey activities at Talacre Beach between **Sunday 19th April and Wednesday 22nd April**.

These surveys will be carried out remotely by an unmanned aerial vehicle (a 'drone'). The drone is not noisy but you may be able to see it as the surveys take place.

Temporary Closure of Public Right of Way

The public footpath (highlighted in yellow on the map) is temporarily closed, following approval from Flintshire County Council. The route, which runs between the Point of Ayr Terminal and the Colliery, has been securely fenced off as a safety precaution to protect the public from the ongoing work on the Colliery, and ensure the safety of the workforce undertaking the activities ongoing in this area.

While the path is closed, an alternative route (shown in green on the map) is available along the railway line, reconnecting with the Wales Coastal Path. Clear signage has been installed to guide walkers to the alternative route.
