

Point of Ayr Terminal

COMMUNITY NOTICE

PoA Terminal Decommissioning and Construction Activity

Decommissioning and construction activities are underway at the Point of Ayr Terminal and surrounding Colliery area.

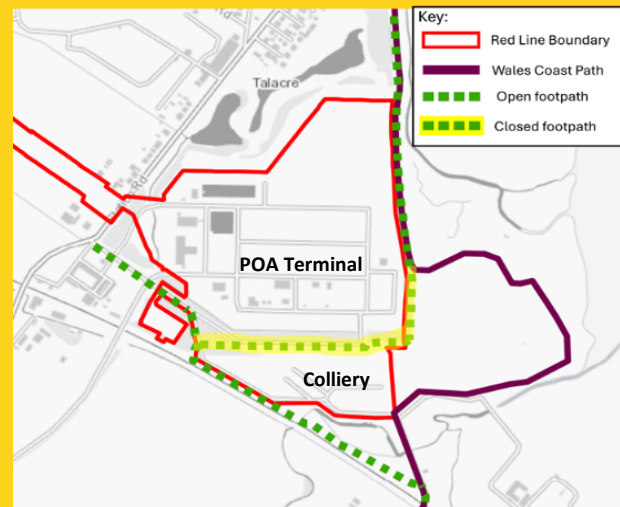

From **Tuesday 7th April – Monday 20th April**, subject to project progress, test piling activities will be carried out inside the Terminal. Specialist equipment for this work will be delivered to the Terminal on **Tuesday 7th April** and due to its size, it will be accompanied to site by an escort vehicle.

During this period, there may be an increase in noise levels, site activity and vehicle movements. Works will take place **Monday to Friday from 08:00 to 18:00** and **Saturdays from 08:00 to 13:00**, with an additional hour either side for site preparation and close-down. You may also see unmanned aerial vehicles ('drones') operating within the Terminal boundary but no noise is associated with them.

Temporary Closure of Public Right of Way

The public footpath (highlighted in yellow on the map) is temporarily closed, following approval from Flintshire County Council. The route, which runs between the Point of Ayr Terminal and the Colliery, has been fenced off to allow works to take place safely and securely.

While the path is closed, an alternative route (shown in green on the map) is available along the railway line, reconnecting with the Wales Coastal Path. Clear signage has been installed to guide walkers to the alternative route.

Warren Farm Activity

Please be advised that construction related activities at Warren Farm are ongoing. During this period, you may notice increased vehicle movements in and out of the area, with associated noise and construction equipment onsite.
